

## RESEARCH PROPOSAL

## المقترح البحثي

### Assignment 3: Research Methodology

### المنهجية المقترحة

#### Procedures

1. Based upon the research objectives, variables hypotheses etc., decide upon the appropriate design or procedures for the methodology you recommend to use and that you think will best achieve the research objectives
2. Explain the exact procedures for your designed methodology including but not limited to the research strategy, the data gathering techniques, the samples, the tools for analysis, etc.
3. If necessary diagram the methodology to clarify the procedures
4. If you use tools such as questionnaires or interviews, DRAFT sample of the questions that you intend to use and specify the objective of each question
5. Suggest ways to check on the validity and reliability of the data

#### Presentation Format

- Topic title
- Detailed title
- Problem Brief - A paragraph describing the research problem
- Research Objectives
- Research Variables, Hypotheses (optional), & Questions
- **METHODOLOGY**
- References

Submission can take any reasonable number of words (determined based on the chosen subject of study), normal font size

Due Date: Sunday 11 December 2011
